

PAYAL R. DEVANI

Senior Full Stack Engineer | Technical Lead | Solution Architect

Ahmedabad, Gujarat | +91 9726944019 | payal.borad@gmail.com

Executive Summary

Senior Full Stack Engineering Professional with 15+ years of experience designing, delivering, and modernizing enterprise web applications, SaaS platforms, and eCommerce solutions. Proven track record leading cross-functional engineering teams, driving secure software development, architecting scalable solutions, and delivering projects from requirements through production support. Expertise in PHP/Laravel, cloud integrations, application security, performance optimization, REST APIs, and AI-assisted software development using Claude, GitHub Copilot, Cursor, ChatGPT, and Gemini.

Career Highlights

- Delivered 50+ enterprise web applications and eCommerce platforms.
- Led and mentored teams of 5–10 developers.
- Eliminated critical OWASP vulnerabilities across production applications.
- Successfully led PHP 8.2 modernization with zero production incidents.
- Built 200+ automated PHPUnit tests improving release quality.
- Integrated Stripe, PayPal, Twilio, Google APIs, Mailchimp and AWS S3.

Professional Experience

Senior Full Stack Developer | Agile Infoways | Apr 2012 – Present

- Owned end-to-end software delivery including architecture, estimation, development, deployment and production support.
- Delivered secure, scalable web platforms for global clients across multiple domains.
- Established engineering standards, code reviews, mentoring and Agile delivery practices.
- Optimized databases and application performance for high-traffic systems.
- Led security remediation, accessibility improvements and legacy modernization initiatives.
- Designed reusable frameworks and backend components accelerating future development.

Technical Expertise

Backend: PHP 8.2, Laravel, CodeIgniter, CakePHP, WordPress, Drupal, Node.js

Frontend: React, AngularJS, JavaScript, HTML5, CSS3, Bootstrap

Database: MySQL, MongoDB

Cloud: AWS S3, AWS SDK, Linux, Git

Security: OWASP Top 10, RBAC, Secure Coding

Testing: PHPUnit, TDD

AI Tools: Claude Code, GitHub Copilot, Cursor, ChatGPT, Gemini, Ollama

Education

M.Sc. Computer Applications&IT

K. S. School of Business Management&Information Technology, Gujarat
